solarwinds

WHAT'S THE BEST WAY TO MONITOR YOUR SERVERS & APPLICATIONS?

THE WRONG WAY

THE RIGHT WAY

You're constantly reacting to emergencies with no time to solve the big problems.

3x

You'll be 3 times more likely to respond in less than 30 minutes to application monitoring requests.

You'll only see part of the problem with myopic tools.

85%

of SolarWinds® Server & Application Monitor users improved their availability.

~11 HRS/MONTH
