Maintenance Renewal Service

It pays to keep your SolarWinds maintenance active!

SolarWinds keeps maintenance simple, fair, and very affordable. Your IT environment is constantly changing – new devices, new challenges, new problems – SolarWinds® software updates and free training helps you stay on top of it.

SolarWinds licensed products include a year of maintenance from the date of purchase. Annual maintenance renewal provides tremendous ongoing value at a small fraction of the list price.

Adeptec recommends that you renew your product maintenance prior to the expiration date to ensure that you will continue to have access to product updates, technical support, and much more.

What are the benefits of SolarWinds maintenance renewal?

Price Discount

Maintenance renewal is far less expensive than purchasing a new license after your maintenance has expired.

Product Updates

A steady stream of product updates (new features, bug fixes and even major enhancements!).

Technical Support

Acclaimed 24×7 SolarWinds technical support for all products.

Customer Events

Invitations to special customer events with product managers, development leads and SolarWinds Head Geeks.

Customer Influence

	1		
{	•	•];

Ability to shape future product direction with feature requests as well as access to beta and release candidate program participation.

Synchronization

Tracking multiple renewal dates is simplified when you synchronize or "co-term" all of your SolarWinds renewal dates.
